

September 12, 2021

I am delighted to have an opportunity to write a letter in support of Jonathan Forgash and Queens Together.

I have been a member and supporter of Queens Together for several years now. Their efforts in the fight against social inequities, hunger and food insecurities has been a model in community leadership and I have watched in awe as they've supported many other organizations throughout the Queens and the city. His work and that of QT, particular over the past 18 months during the Pandemic, is note worthy and should be celebrated as a triumph over the most adverse circumstances imaginable. Feeding people when they can't feed themselves is a noble pursuit of the highest calling.

I'd known Jonathan Forgash for several years before I became involved with QT and the passion that he shows in supporting communities, small businesses and other organizations in need has been inspiring. His tireless spirit of generosity and personal drive to help in any way he can leaves me, a 35yr veteran of our industry, humbled.

I wholeheartedly endorse Queens Together, their mission and look forward to working with Jonathan for years to come.

Sincerely,

Rick White
