## Section 1. Short title

This Act may be cited as the "Uyghur Forced Labor Disclosure Act of 2020".

## Sec. 2. Findings

Congress finds the following:

(1) Since early 2017, the Government of the People's Republic of China has conducted a policy of disappearance, mass internment, and imprisonment of Turkic Muslims, particularly Uyghurs, in China's Xinjiang Uyghur Autonomous Region (XUAR).

(2) Since 2014, Chinese authorities have detained between 800,000 and possibly up to three million Uyghurs, ethnic Kazakhs, Kyrgyz, and other ethnic minorities in forced education, training, and labor camps.

(3) The bi-partisan, bi-cameral Congressional-Executive Commission on China's 2019 Annual Report found numerous reports of forced labor associated with government repression of ethnic minority groups in the XUAR. Detainees performed forced labor in factories both within and outside of internment camps in XUAR.

(4) Radio Free Asia reported in January 2019 that authorities had also sent Uyghurs and Kazakhs from the XUAR to other provinces in China for forced labor.

(5) Comments in March 2018 from the president of the China National Textile and Apparel Council suggested that textile manufacturers were working with XUAR authorities to exploit forced labor.

(6) Companies that work in the XUAR are at great risk of complicity in the human rights abuses being committed in the region.

(7) In a March 2020 report, the Australian Strategic Policy Institute identified 27 factories in nine Chinese provinces that are using Uyghur labor transferred from Xinjiang. These factories indirectly supply global brands, including many American multinational companies.

(8) Forced labor in XUAR is Chinese government policy and due diligence efforts to ensure clean supply chains is nearly impossible due to mass surveillance, pervasive police presence, and intimidation of workers.

(9)The human rights policies, practices, and impacts of publicly traded companies in the United States are material to securities reporting.

(10)An increasing percentage of investors consider human rights risks as a part of their investment decision-making process.
