

VARIETY BOYS & GIRLS CLUB OF QUEENS

September 17, 2021

To whom it may concern,

This pandemic has taken a toll on everyone, and Queens Together was founded at a time of great need. They reached out to our organization in March, 2020 to request space to run food giveaways. We were happy to have them partner with us and provide much needed nutritional support to our families and the larger Astoria community.

Queens Together was founded during the height of the COVID-19 pandemic to tackle food insecurity. They bring nourishing meals and fruits and vegetables to families and individuals, all the while partnering and supporting local restaurants and businesses. They continue to bring services, information and resources to all of Queens.

I wholeheartedly recommend Queens Together and I look forward to our continued partnership to reduce food insecurity.

Sincerely,

Costa Constantinides
CEO
Variety Boys & Girls Club of Queens
